1. Introduction

In software development, a User Story is one or more sentences that describe the natural language (not the technical language) or the business language of the end user or system user to record. what users need to do or not do their job or duty. User stories are used in methods such as Agile software development as the basis for defining system functions such as business development and to facilitate management of requirements. Help yourself know "who", "what" and "why" in a short, simple request, often limited only by details that can be written on a piece of sticky note or scrap paper. small.

User stories written by business users are the primary way of users because they understand most of the system's processes, workflows and functions so it is working right now. User stories can also be written by Dev to make non-functional requirements (like security, performance, quality, etc.).

1.1 Purpose

- Provide a prioritized features list, containing a short description of all functionality desired in the product.
- Lists everything that the product owner and Scrum team feels should be included in the software they are developing.

1.2 Scope

- Write all the user's requirements.
- Lists some main functions of the system and acceptance criteria of each function.
- Short description of all the functionality desired in the product.
- Given the priority of each feature and function of the product.

Story: The doctor wants to create a medical examination slot for his created clinic		

2.1.6. View created medical examination slot

As a doctor I want to view created medical examination slot		
View created medical examination slot	Project: OnClinic	Priority: Low
Actor: Doctor	Acceptance criteria - The list of created medical examination slot will display clearly and accurately	
Story: The doctor wants to view created medical examination slot		

2.1.7. Editing a medical examination slot

As a doctor I want to edit a medical examination slot		
--	--	--

Edditing a medical examination slot	Project: OnClinic	Priority: High
Actor: Doctor	Acceptance criteria - I can edit created slot's information in created examination slot section easily - The time of the slot must be after now	
Story: The doctor wants to edit a mediact examination slot information		

2.1.8. Clinic recommendation

As a patient I want OnClinic system predict the disease and suggest the right clinic for me		
Clinic recommendation	Project: OnClinic	Priority: Low
Actor: Patient	Acceptance criteria - Enter the three most obvious symptoms - Accurate disease prediction - Quick and clear, accurate clinic suggestions	
Story: The patient wants OnClinic system predict the disease and suggest the right clinic for him		

2.1.9. Booking

As a patient I want to book a clinic		
Booking	Project: OnClinic	Priority: Low
Actor: Patient	Acceptance criteria	

Story: The patient wants to book a clinic for medical examination	- I can choose the form of offline or online examination (if the clinic supports it). - You can choose any suitable appointment slot - Quick and easy clinic booking process
---	--

2.2. Sprint 2

2.2.1. Upcoming examination (for Doctor)

As a doctor I want to upcoming examination		
Upcoming examination (for Doctor)	Project: OnClinic	Priority: High
Actor: Doctor	Acceptance criteria - There will be a list of upcoming examination displayed clearly and exactly	
Story: The doctor wants to know the upcoming examinations		

2.2.2. Online examination (for Doctor)

As a doctor I want to examine my patient online		
Online examination (for Doctor)	Project: OnClinic	Priority: High
Actor: Doctor	Acceptance criteria - Good video call quality - Functions: hang up, turn off micro, turn off video can work smoothly	
Story: The doctor can take an online examination on the app		

through video call	
--------------------	--

2.2.3. Upcoming examination (for Patient)

As a patient I want to view upcoming examination		
Upcoming examination (for Patient)	Project: OnClinic	Priority: High
Actor: Patient	Acceptance criteria - There will be a list of upcoming examination displayed clearly and exactly	
Story: The patient wants to know the upcoming examinations		

2.2.4. Online examination (for Patient)

As a patient I want to take an online examination		
Online examination (for Patient)	Project: OnClinic	Priority: High
Actor: Patient	Acceptance criteria - Good video call quality - Functions: hang up, turn off micro, turn off video can work smoothly	
Story: The patient can take an online examination on the app through video call		

2.2.5. Examination history (for Doctor)

As a doctor I want to view my examination history		
Examination history (for Doctor)	Project: OnClinic	Priority: High
Actor: Doctor	Acceptance criteria - There will be a list of passed examination displayed clearly and exactly	
Story: The doctor wants to view his examination history		

2.2.6. Examination history (for Patient)

As a patient I want to view my examination history		
Examination history (for Patient)	Project: OnClinic	Priority: High
Actor: Patient	Acceptance criteria - There will be a list of passed examination displayed clearly and exactly	
Story: The patient wants to view his examination history		

2.2.7. Create prescriptions

As a doctor I want to create prescription for my patient		
Create prescriptions	Project: OnClinic	Priority: High

Actor: Doctor	Acceptance criteria - The content entered must be the right form (number for dosage, unit and text for medicine name)
Story: The doctor want to create a prescription for his patient	

2.2.8. View prescription

As a patient I want to view my prescription		
Precription	Project: OnClinic	Priority: High
Actor: Patient	Acceptance criteria - There will be a prescription displayed clearly and exactly for patient	
Story: The patient wants to view his prescription		

2.3. Sprint 3

2.3.1. Profile

As a user (patient/doctor) I want to view and manage my profile		
Profile	Project: OnClinic	Priority: Low
Actor: User	Acceptance criteria - My profile page will clearly and accurately display the information I entered	
Story: The user wants to view and manage their profile		

2.3.2. Change personal information

As a user (patient/doctor) I want to change personal information		
Change personal information in profile	Project: OnClinic	Priority: Low
Actor: User	Acceptance criteria - Email must be in the correct format (ex: user@gmail.com) - Re-enter password must match the password entered - Birthday must be before now and after 1850 - When I let my information empty, the app will notify	
Story: The user wants to change their personal information		

2.3.3. Contact us

As a user (patient/doctor) I want to reach out with OnClinic developer's team		
Contact us	Project: OnClinic	Priority: Low
Actor: User	Acceptance criteria - I can respond any request or report to Onlinic developer's team fast and easily	
Story: The user wants to reach out with OnClinic developer's team		

2.3.4. Feedback for a clinic

As a patient I want to view and give comment for a clinic		
--	--	--

Clinic Feedback (patient view)	Project: OnClinic	Priority: High
Actor: Patient	Acceptance criteria - Feedbacks about my clinic will display clearly and exactly - Give a clinic rating from 0 to 5 starts (step 0.5) - Give a detail text comment	
Story: The patient wants to view and give comment for a clinic
